ARAMIS:

Aramis is an aroma hop from the Alsace region in France. It is a product of Strisselspalt and the Whitbread Golding variety. Aramis has inherited Strisselspalt's most excellent aromas while providing a higher, and more stable bittering. It is sweet and spicy, citrusy and herby. The measure of its aroma and alpha characteristics make it appropriate for any and all brewing stages. Much has been said of its use in New Belgium Hop Kitchen's French Aramis, a dry, refreshing India Pale Ale.

Technical data:

Purpose:	Aroma
Characteristics:	Sweet with notes of spice, citrus and herbs
Alpha Acid Composition:	8.1%
Beta Acid Composition:	3.8% - 4.5%
Co-Humulone Composition:	42.1% - 42.2%
