### STRISSELSPALT:

#### Brewer's notes:

Strisselspalter is related to Spalter but grown in the Alsace region of France around Strasbourg. It is likely an old land race hop, and its acreage is dwindling due to its low yield, but it survives because of its high demand in French beers. It has moderate and balanced oils except for farnesene which is barely there at all. Its alpha acids are around 5% with low cohumulone near 20% making it a nice, continental-style aroma hop.

#### Technical data:

Purpose:	Aroma
Alpha Acid Composition:	4.8%
Beta Acid Composition:	3.3%
Co-Humulone Composition:	27%
Country:	France
Seasonal Maturity:	Mid
Yield Amount:	900 kg/hectare (800 lbs/acre)
Growth Rate:	High to Low
Resistant to:	Resistant to verticillium wilt
Storability:	Retains 70% alpha acid after 6 months storage at 20 degrees C
Total Oil Composition:	0.9 mL/100g
Myrcene Oil Composition:	48%
Humulene Oil Composition	28%-32%
Caryophyllene Oil	10.3%
Farnesene Oil	0.1%
Substitutes	Mount Hood, Crystal, Hersbrucker
Style Guide	Lager, Saison, Blonde Ale, Amber Ale, Belgian Ale, Bock, Maibock, Golden Ale, Belgian Pale Ale
